Kimbi Tiez a.k.a Kimbi the Goddess is a one of a kind spiritual entertainment performance artist. She delivers a multidimensional experience through song and spoken word by utilizing elements of Hip-Hop, Soul, Blues, Classical and Jazz influences. She is a natural healer and a longtime teacher in the ancient Eastern arts. Born in the Year of the Dragon, she is a native South Carolinian gal, who was molded and fashioned in N.Y.C. Kimbi was brought up in a world filled with an array of music and strong phenomenal women. Whether sitting in the church pews listening to her Grandmother play the piano or silently taking in the melodies that her Mother (a former lead singer of a funk infused band named "Freedom" in the 70's) sang passionately everywhere; Kimbi has music in her DNA. Doing what she loves, she has honed her performance skills on poetry stages, colleges and a multitude of events throughout the US South East. She is also an International Songwriting Competition semi-finalist (2018 & 2020). It's fair to say Kimbi was destined to not remain hidden from the rest of the world.

Kimbi's debut album, "From the Heart, Vol.1" is a Neo-Soul masterpiece. She cites her influences as Billie Holiday; Aretha Franklin; Earth, Wind & Fire; DeBarge; and The Doors. It is a culmination of many years worth of stories and the heartfelt transparency of her ongoing journey. In the creative process she found the power in forgiveness, as well as the necessary, positive transformations resulting from the dark experiences of her life. Her album is a truly spiritually guided answer to questions she didn't think she had the courage to ask let alone reveal. Each song was written from a deeply personal space within and resulted in a process of self discovery and soulful healing. Kimbi hopes that by sharing her story it will remind us that we are not alone and that we are all truly connected and we all ultimately want to know, feel and be in a state of absolute peace and love.
